

for  
the  
dogs

Night or day, day or night — treat your dog to a quick game of fetch anytime with the Nite Ize Flashflight. Made of lightweight, super-durable materials, the Frisbee-style disc looks and feels like its non-illuminated competitors. But as soon as the sun goes down, press a button, and the Flashflight glows with a 100,000-hour LED fiber-optic array. Four bright color options add to its versatility. \$25.
