

THE WALL STREET JOURNAL.

OFF DUTY

TIE IT ALL TOGETHER
WYLIE DUFRESNE, chef and owner of WD-50

"We use Nite Ize Gear Ties in the restaurant to lash stuff together, and virtually every cord of mine is more organized because of these. They come in different sizes, all the way up to 32 inches, and the really big ones are incredibly strong. They have a serious piece of wire inside a sturdy rubber housing; you can tie a garden hose up with it. If something's come apart, these are often better than duct tape." *From \$4.50 for a pack of four niteize.com*
