

# BIOCASE™

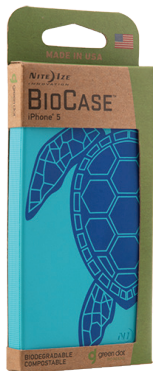

for iPhone® 5/5S

The compostable and biodegradable BioCase protects your iPhone 5/5S and 4/4S, respects the environment, and makes a colorful personal statement all at the same time. If that isn't sustainable, we'll eat the recycled packaging it comes in.

Wrapped in "anti-packaging," the BioCase comes in a simple sleeve made of 100% post-consumer recycled paperboard, printed with non-toxic ink using new dot technology that requires less ink than conventional printing methods. And that's just the beginning! The BioCase itself is made in the USA of Green Dot GDH-B1 Bio Resin - the world's first certified compostable elastomer, comprised of organic materials that meet the strictest domestic and European standards of compostability and biodegradability: when consistently exposed to a suitable composting environment\*, it fully breaks down into organic compounds in a matter of months. Soft, flexible yet surprisingly durable, the BioCase fits snugly around your iPhone 5/5S or 4/4S, slides in and out of your pocket easily, and comes in a variety of solid colors and designs that reflect a wide spectrum of styles and moods. It's the perfect solution!

- ⊕ Designed to fit the iPhone 5/5S, 4/4S with full accessibility to all buttons and ports
- ⊕ Soft comfortable material for handling and slides easily into your pocket
- ⊕ Available in an eye-catching array of colors and designs to reflect your style
- ⊕ Green Dot® GDH-B1 Bio Resin is safe, durable, and certified to meet the toughest environmental standards. Biodegradable and compostable following the requirements of EN 13432 and ASTM D6400.
- ⊕ "Anti-Packaging" - The BioCase comes in a simple sleeve made of 100% post consumer recycled paperboard printed with bio-based ink made from soy and vegetables
- ⊕ Can be custom printed with your own message or logo design (call for details)
