

GEAR TIE[®] MOUNTABLE CORD ORGANIZERS

Mountable Cord Organizers

Unclutter that cluster of cords with our versatile, streamlined Gear Tie Cord Organizers. Innovative and simple, it's the perfect blend of functional, flexible, and smart.

The adjustable, shapeable nature of our Gear Tie Mountable Cord Organizers creates the perfect way to keep your desktop, nightstand, entertainment unit, kitchen and bathroom countertops free of maddening cord chaos. Its slim, round base is backed with 3M[®] Acrylic Plus Tape[™], so it affixes semi-permanently and out of view to the undersides of shelves, desks, or counters - practically any smooth, flat surface. It stays firm and in place through extreme temperatures, both in and out of doors, but can be removed whenever you choose without damaging the wall or furniture it's been attached to. Once you've got it in place, just wrap the flexible, reusable Gear Tie around the cords of chargers, appliances, or electronics to gather, organize, and bind them neatly, make them less visible, and their functionality more accessible. No more digging around your bedside looking for that phone charger - the Gear Tie Mountable Cord Organizer keeps it neatly and reliably in one spot. Multiple Gear Tie Mountable Cord Organizers lined in a row can neatly guide longer cords.

- + Colors Available: Black & White
- + Gear Tie Mountable Cord Organizers stick to most smooth, flat surfaces to organize, hide or bind any cord or cable.
