

# S-BINER® PLASTIC

Double-Gated Carabiner: #10

Sometimes we have good ideas, sometimes we have big ideas. And sometimes, we have ideas that are good AND big. REALLY big. This BIG S-Biner is a super-sized version of our unique, two-in-one S-Biner with dual spring gates and double functionality.

Made of strong, lightweight, durable plastic, it holds, secures, and connects the big stuff, the awkward stuff, and the heavy stuff. Excellent for organizing those space hogs in your garage (bikes, heavy tools, sporting equipment, garden hoses, extension cords). Also perfect for hanging heavier camping gear, paint cans from ladders - and basically any other big job you want to get a (big) handle on.

- ⊕ Lightweight - molded with highly durable glass filled nylon
- ⊕ Secure stainless steel wire gate closure
- ⊕ Fits objects 2.25" in diameter (6.4 cm)
- ⊕ Dimensions: 10.375" x 4.875" x .63"
- ⊕ Weight: .41lb. (.186kg)
- ⊕ Weight Rating: 100 lb.
